

## MWEMBENI

The mosque is quite nicely built and in good shape. They have solar panels and water is available. There are 2 nursery classrooms which are in a fair state. However the battery for the solar panel needs to be replaced. The cost of the battery is around 15,000-20,000 Kshs.

## MWEMBENI

Geographical Location: 100 kms from Mombasa, between Samburu and Makinen

Visited on: 16th Mahe Ramadhan 1430 /6th September 2009The mosque is quite nicely built and in good shape. They have solar panels and water is available. There are 2 nursery classrooms which are in a fair state. However the battery for the solar panel needs to be replaced. The cost of the battery is around 15,000-20,000 Kshs.

Aims:

We need to have dry batteries which cost 15,000-20,000 Kenyan Shs.  
Water piping&rsquo;s also need to be done.
